#### iv. Contact pyramid

A contact pyramid setting out a quick and efficient method to coordinate communications and easily spread information amongst your community, especially your Community Emergency Team (CET).

The pyramid works by the person at the top of the pyramid, usually the Lead/Deputy, contacting the next two people directly down the pyramid, and so on, until every person in the pyramid has been contacted. Where a person is absent, the person above should move down a level.

## v. Emergency Box

Communities should prepare and maintain an emergency box. It is important that the box be kept in a secure building that could be accessed by an appropriate community member during an incident.

Set out below is the location and contents of your community's emergency box:

| 5  | Inspect the building to ensure it is still fit for purpose. E.g. power, heating, structure etc.   |                  |                     |  |  |  |
| 6  | Establish contact with Police/ Local<br>Authority as necessary – get a log number.  |                  |                     |  |  |  |
|    | SET-UP CE   | NTRE             |                     |  |  |  |
| 7  | Use this plan and the Emergency Box contents to organise the RC internal layout.  |                  |                     |  |  |  |
